

**VOLUNTARY REMEDIATION PROGRAM
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT**

PROJECT SUMMARY

Site Name:	Sparkling Image Carwash
Applicant's Name:	Wash Depot XX, Inc.
Site Location:	6190 North Keystone Indianapolis Marion County
VRP Site Number:	6981201
Project Manager:	Bill Wieringa
Date Application Received:	December 10, 1998
Date Project Completed:	January 20, 2000
Project Duration:	1 year, 1 month
Contaminant Group(s):	Volatile Organic Compounds (VOCs)
Media Cleaned Up:	Surface Soil, Subsurface Soil, Groundwater
Cleanup Goals Achieved:	Tier II Nonresidential
Deed/Land Use Restrictions:	Nonresidential

Project Description: This site entered into the VRP to address a former underground storage tank (UST) location at the site. The tanks were removed in 1986 and were not replaced.

The site performed a Phase II Investigation and found that none of the constituents of concern at the site were above the VRP Cleanup Goals. The site set up a soil confirmation sampling event which VRP staff attended and split samples. During the confirmation sampling, monitoring wells were installed in order to perform the required four quarters of sampling to demonstrate that the groundwater was below the Cleanup Goals. VRP staff then split confirmation groundwater samples with the site and it was determined that the site soils and groundwater were acceptable for closure under the Tier II Nonresidential Cleanup Goals.
